

THE 5 THINGS BIG ADVERTISERS DO THAT YOU DON'T

Real strategies. Real breakdowns. Steal them for your own ads.

1. They Never Rely on One Audience

Run multiple audiences simultaneously. Test broad, interest, and lookalike. Let data decide.

2. They Test Creatives Systematically

Launch new creatives weekly. Test one variable at a time. Kill losers fast.

3. They Track Every Conversion Correctly

Use server-side tracking + pixel. Audit data weekly. Fix discrepancies fast.

4. They Have a Full Retargeting Stack

Different ads for different funnel stages. Match message to intent.

5. They Sell the Outcome, Not the Product

Lead with results. Use specifics. Remove objections early.

Weekly Expert Access. Without the 6-figure price tag.
